# DIRECTORS PROFILE

**Ms. Deepa R,  
Director**

Deepa started her career as a student executive counsellor in Vinayaka Mission's Research Foundation – Deemed to be University (VMRFDU) at Tamil Nadu. Her 16 years of spanning success in this department have deepened her understanding, and she was the head of the Admission Department in VMRF. She has positioned herself as an instrumental part of the astonishing growth that VMRF has witnessed in the past decade. She has always believed that education is the only tool to change the present and create a future. Thus, Ms. Deepa, with her dedicated team, has travelled across India all these years, creating awareness on the value of education, women education and women empowerment. She has helped students of financially unstable backgrounds and rural areas pursue their education in India and abroad through career counselling, scholarships, acquiring bank loans, and aiding them to access the opportunities provided by the government based on their interest, need, and merit. With her extensive knowledge, experience, and portfolio of accomplishments in the field, Ms. Deepa and her dedicated team are all set to face new challenges in medical and engineering education admission in Asian countries in the coming decade.

Avinash is a dynamic personality with a vision to provide medical education assistance to ambitious students with a dream to prove themselves in the field of medicine. He owns a deep 21 years of experience as an education consultant and in the field of academics and administration. He started his career as a consultant for engineering education and moved on to medical education. He worked as a prominent consultant for more than 30 universities

across the country, empowering the lives of thousands of students. His counselling and guidance have helped several students to proceed with their careers successfully. Avinash's will be incomplete if his generous contributions and helping attitude towards economically backward students through scholarship and counselling support is not mentioned.

**Mr. Avinash K,  
Director**

# INTRODUCTION

Hong Bang International University (HIU) is a multi-disciplinary, multi-level university (from undergraduate to postgraduate levels). The University offers 41 education programs, 16 of which are international programs where English is the medium of instruction, in all areas of study such as Health Sciences, Economics and Management, International Languages and Cultures, Social Sciences, Technology and Engineering, and Educational Sciences, to bring a multicultural and multinational learning environment to students. Many groups of international students from India, Honduras, Russia, and Korea have chosen HIU as their study abroad destination. In addition, HIU has strong connections with universities around the world, cooperating with hospitals, corporations, and domestic as well as foreign enterprises, which helps increase employment and internship opportunities for students.

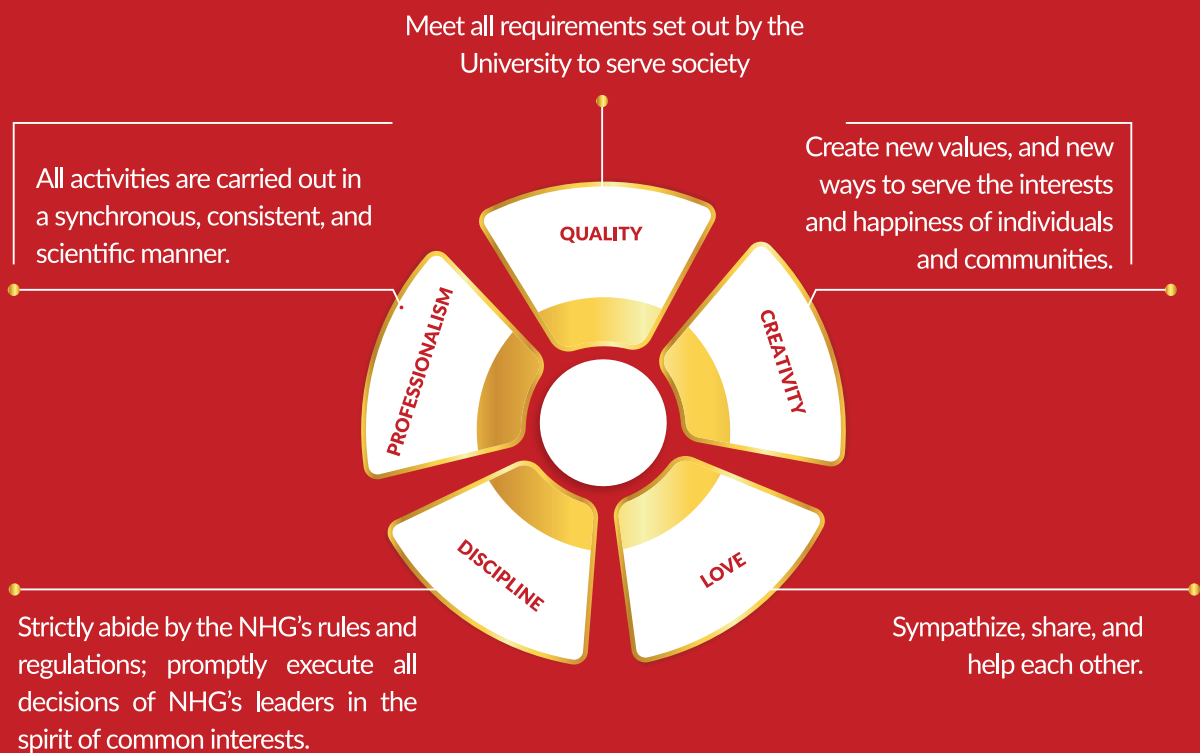

# VISION

Hong Bang International University, a member of Nguyen Hoang Education Group (NHG), aims to become a university with the best international environment in Vietnam. HIU offers multi-disciplinary education, in which healthcare is the focus area.

# MISSION

Hong Bang International University has a mission to train high-quality students from undergraduate to doctorate levels; conduct basic and applied research in the fields of Health sciences, Economics - Management, Social sciences, and Engineering - Technology to serve the socio-economic development of Vietnam.

# CORE VALUES

# WHY CHOOSE HIU

## 1/ A university located in the most vibrant and modern city in Vietnam

Hong Bang International University is in Ho Chi Minh City - a city likened to the "Pearl of the Far East" by its heritage architecture, with a vibrant and bustling atmosphere, and friendly people. Outside of class, students will have the opportunity to visit this beautiful city, interact with hospitable people, and enjoy unique Vietnamese delicacies here.

## 2/ International learning environment

HIU offers a dynamic international learning environment, encouraging students to create, develop and integrate with the international student community. English is a widely used language in both teaching and community activities at the university, helping students improve their foreign language skills and adapt well to the international working environment in the future.

## 3/ Dedicated and experienced teaching staff

HIU's teaching staff are composed of professors and doctors who have studied and worked in an international environment, with many years of experience working in the healthcare sector and a high level of English proficiency which allows them to teach international students, ensuring effective coverage of and passing on their expertise to students.

## 4/ Internship and practice opportunities from the first year of study

Students can practice at modern pre-clinical science labs of HIU right from the first year. They have the opportunity to practice at prestigious large hospitals within Ho Chi Minh city and its adjacent areas which have a cooperation agreement with the University and Nguyen Hoang Education Group (NHG). Some of these hospitals include Nguyen Tri Phuong Hospital, Nguyen Trai Hospital, FV Hospital in Ho Chi Minh City; and Dong Nai General Hospital in Dong Nai Province.

## 5/ Modern facilities

Hong Bang International University has a system of laboratories, 60 specialized pre-clinical science labs with modern equipment for healthcare students such as a modern 3D human anatomy virtual table used by medical universities and colleges around the world. After classes, students can relax at the Sport and Art Center or study in the library with hundreds of prestigious medical books.

# FACTS

---

6

Faculties in health sciences sector

16

Education programs taught entirely in English

40

Student clubs

41

Education programs

73

Specialized practice rooms for Health sciences students

590

Faculty members (30 Professors, Associate Professors;  
130 PhDs, Specialists level II; 280 Masters, Specialists level I)

15,000

Undergraduate and postgraduate students are  
studying at HIU

# FACULTIES

## ■ HEALTH SCIENCES SECTORS

- Faculty of Medicine
- Faculty of Odonto-Stomatology
- Faculty of Pharmacy
- Faculty of Nursing - Midwifery
- Faculty of Medical Laboratory
- Faculty of Physical Rehabilitation

## ■ OTHER SECTORS:

- Faculty of Economics and Management
- Faculty of Technology and Engineering
- Faculty of Social Sciences
- Faculty of Global Languages & Cultures
- Institute of Education Sciences and Teacher Training

# FACULTY OF MEDICINE

- Faculty of Medicine was established with the main task of being an educational institution to train medical staff at undergraduate and postgraduate levels, do scientific research and technology transfer. Moreover, Faculty of Medicine is also the main unit of basic medical training for the health sector at HIU.
- Faculty of Medicine currently has 02 training programs: General Medicine (Vietnamese and English) and Traditional Medicine (Vietnamese).

- The teaching staff are all professors and doctors who graduated domestically and internationally, many lecturers have experience in teaching in an international environment.
- Faculty of Medicine has a range of modern facilities to serve the teaching and learning needs of lecturers and students at the faculty: a system of 12 laboratories plus basic medical practice rooms, 60 specialized pre-clinical science labs and many medical models and simulation machines such as modern 3D human anatomy virtual tables that simulate the human body, giving students a taste of reality.

- Medicine is a prestigious field of study that many potential domestic and international students choose to pursue. The Faculty of Medicine of Hong Bang International University is designed in an internationalization-oriented way, training medical doctors with medical ethics, knowledge and basic professional skills in medicine to identify, recommend and participate in solving individual and community health problems; have proficient foreign language skills and the ability to independently do scientific research, access and apply scientific achievements to serve the cause of caring, protecting and improving public health, international integration, economy and engage in lifelong learning.
- With a team of experienced and enthusiastic lecturers, international students will gain new and diverse knowledge, and be assured of future job opportunities. After classes, students also have the opportunity to experience cultural exchanges and academic exchanges with domestic and international students as well as institutions around the world.

# GENERAL MEDICINE EDUCATION PROGRAM FOR INTERNATIONAL STUDENTS

# ADMISSION INFORMATION

## Requirements for admission:

- Show evidence of a minimum level of English language proficiency above B2 level (eg IELTS band 6.0 or above).
- Be successful in the admission interview for international students.

## 2. Admissions: 3 intakes (March, September, December)

---

March  
intake

- *Application: December - January*
- *Admission interview: February*
- *Course expected start date: March 1*

September  
intake

- *Application: June - July*
- *Admission interviews: August*
- *Course expected start date: September 5*

December  
intake

- *Application: September - October*
- *Admission interviews: November*
- *Course expected start date: December 1*

## 3. Admission methods:

---

Academic record review and admission interview.

## 4. Tuition fees:

---

- Tuition fees: **5,500 USD/year (5% increase per year)**
- Tuition is divided into 2 payments in 1 academic year and is paid upon notification of the University.

## 5. Admission documents:

---

- Application form of HIU
- High school degree or equivalent
- Transcripts of grades 10, 11, 12
- NEET transcript (if any)
- Passport or identification card (copy)
- Evidence of English proficiency (if any)

# CURRICULUM

**Duration: 6 years (12 semesters)**

**Degree: Medical Doctor**

## \*The 1st and 2nd year

- **General Education subjects:** Vietnamese language, Computer Applications, Vietnamese culture, Electives.
- **Basic Knowledge subjects:** Health Science Research Methods, Biology and Genetics, Biophysics, Psychology-Medical Ethics, Electives.
- During these years, students will practice in Pre-clinical science labs at HIU

## \*The 3rd year to the end of the 5th year

- **Foundation subjects:** Biochemistry, Microbiology, Anatomy, Pathology, Diagnostic Imaging, Preclinical, Community Internship.
- **Specialized Knowledge subjects:** Internal Medicine, Surgery, Symptomatology of Internal medicine, Symptomatology of Surgery, Obstetrics and Gynecology, Pediatrics Odon-to-Stomatology
- During these years, students will have clinical observations and practicums in hospitals located within Ho Chi Minh City and its adjacent areas.

## \*The 6th year (final year):

- Students continue to specialized practice (oriented in Internal Medicine-Pediatrics or Surgery-Gynecology) at hospitals.
- **Graduation knowledge:** Students who are eligible for the course score can choose 1 of 2 options:
- **1/ Graduation Thesis**
- **2/ General theory and clinical exam.**

# HOW STUDENTS FEEL

“““

It's been a year since I became a student at HIU. I'm glad to be here. The staffs are so polite and friendly. HIU also has many useful clubs for international students, giving us the opportunity to interact and harmonize with the Vietnamese student community. I'm satisfied with what HIU has offered.

Narmatha Natesan

“““

It's been a wonderful journey with our friends and friendly lectures and a great experience in completing the 1st academic year in HIU. I felt so comfortable with the college atmosphere in all aspects.

Yeswanth Balaji Boopathi

“““

The service, attention, priorities, care, and celebration all these were given by HIU in a great way. I am especially impressed with the teaching staff here, they are very dedicated, professional, and keen on passing on their expertise to their students. The Student Support team is also dedicated and friendly.

Saran Palanisamy
